APPLICANT STATEMENT OF INTERVIEW SUMMARY

The undersigned now provides a statement of the substance of the interview she and M. Paul Barker had with Examiner Huynh on June 17, 2004. Claims 1-7 were discussed. The undersigned discussed the rejections of those claims under 35 U.S.C. § 102 in the Office Action mailed August 27, 2002, in light of the amendment of the claims to recite "isolated human." The Examiner stated that those rejections would be dropped.

The undersigned also discussed the rejections of claims 1-7 under 35 U.S.C. § 112, first and second paragraphs, in the Office Action mailed August 27, 2002, in light of the amendment of the claims to recite "isolated human". The Examiner stated that that the rejection under 35 U.S.C. § 112, second paragraph, would be dropped. Regarding the 35 U.S.C. § 112, first paragraph, rejections, Examiner Huynh contended that the specification did not describe more than one fully human anti-EGFr antibody.

The undersigned reiterated arguments already of record at pages 26-28 of the Amendment and Response filed October 3, 2003. Applicants also reiterated arguments of record addressing the Examiner's concerns about treatment of cancer or tumors. See the Amendment and Response filed October 3, 2003, at pages 26, 27, and 28. The Examiner stated that she would reconsider the § 112, first paragraph, rejections.

The Examiner stated that she expected to apply new documents in a prior art rejection. The Examiner further commented that the Brief Description of Drawings should be checked to make sure the SEQ ID NOs correspond to the SEQ ID NOS in the Sequence Listing.
